VINOS DE ESPANA

Galicia, in the remote north west corner of Spain, is emerging as one of the nation's most exciting wine regions. Following the success of the DO Bierzo in producing vibrant, funky Burgundian wines from the grape variety Mencia, other regions dotted along the River Sil have come to the fore with local varieties like Albarin Tino, Caino, Merenzao and Bastardo. These varietals produce elegant, light bodied and highly expressive reds that can be reminiscent of Pinot Noir.

VINO BLANCO de espana

The Sierra de Gredos mountains, just outside of Madrid, are home to some of the highest Garnacha plantings in the world. These vineyards, which can reach more than 1200m above sea level, produce ethereal wines with great acidity and cool herb, sweet and sour fruit notes. This area once provided wines for the kings of Madrid, now, divided between the appellations of Madrid and Mentrída the region produces less than ten percent of historical levels. Many of the regions vines have been abandoned, left to the forest in favour of higher yielding, flatter vineyards which can be mechanically worked. We are proud to offer a selection of wines from this intriguing area.
